A posse of citizens was organized, and after pursuing the negro for several miles, came near overtaking him as he was crossing Staunton River. A volley was fired at him and his hat fell from his head. He disappeared into the adjoining forests and eluded his pursuers.

HOODOO PULLMAN HAD LONG DELAY. With his faith in "hoodoo" runs considerably fortified, a Pullman conductor, who left Columbus, O., Saturday morning and who should have reached Norfolk Sunday night, got as far as Richmond yesterday. He will attempt to reach Norfolk later.

Not far out of Columbus his train got behind a wreck, which delayed him for an hour or two. Before the West Virginia line could be reached another inconsiderate freight got into trouble ahead of the Pullman, and by the time the Ohio River had been crossed the train was eight hours behind its schedule.

Arrival at Roanoke found the conductor somewhat pessimistic. A train had been made up to go into Norfolk to replace the one which had been so badly delayed, and the conductor was detailed to take charge of the Roanoke-Richmond sleeper. Nothing happened to him until train No. 16, to which his car was attached, had nearly reached Petersburg, when it was found that while one freight stood still another had bumped into it, scattering an assortment of furniture, sugar, broken boxcars and wreck-crew profanity over several acres of Dinwiddie soil.

The passengers on train No. 16 were transferred around the wreck, and the Pullman conductor reached Richmond at 9 o'clock yesterday morning on a day coach. He will make another try for Norfolk in a day or two.

BRAKEMAN HORRIBLY HURT. Squeezed and Rolled Between Train and Lumber Pile.

[Special to The Times-Dispatch.] CAPE CHARLES, Va., September 6.—Ward Hopkins, twenty-five years old, a brakeman in the employ of the New York, Philadelphia and Norfolk Railroad, was seriously injured while shifting cars at Painter Station late last night.

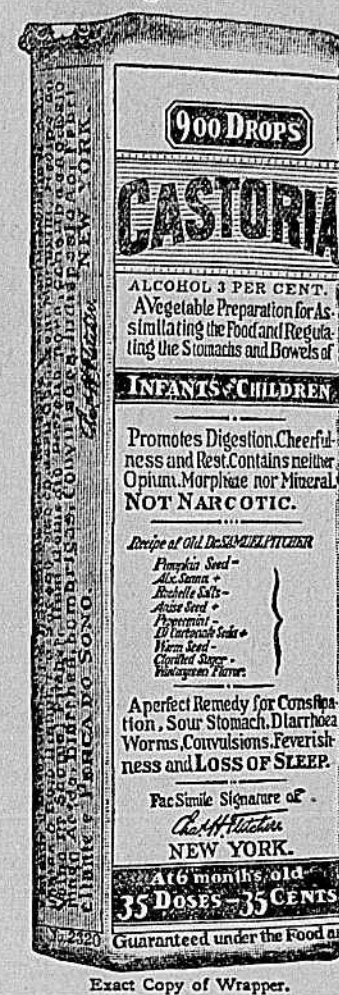

Hopkins was riding on the tender of the engine while making a shift, when he was caught by a pile of lumber which extended over the tracks, his grip on the handhold was forced loose and he was squeezed between the tank and lumber pile, and his body rolled in an upright position the whole length of the engine tank.

He was picked up by the tender crew in an unconscious condition. A physician hastily summoned was unable to locate any broken bones. The man had been injured internally. He was removed to Salisbury Hospital. He is unmarried and resides at Delmar.

YANKTON LAUNCH SUNK BY SUCTION

Men Thought to Have Been Drowned Are Reported Safe. Target Boat Disabled.

[Special to The Times-Dispatch.] NORFOLK, Va., September 6.—A launch belonging to the dispatch boat Yankton was sunk by suction from the Lankton's propeller as the dispatch boat was leaving Old Point to carry supplies to the Atlantic fleet to-day. There were seven men in the boat at the time, and it was thought that two of them had been drowned, but when the Yankton returned to the Roads to-night it was learned that all of the seamen had been saved.

The Atlantic battleship and cruiser fleet had highly favorable conditions for their rough water battle practice work, as a northeast wind was blowing twenty miles an hour, but unfortunately one of the target boats, having been penetrated by shells from the big guns of the ships, because waterlogged and had to be brought in for repairs. The little craft was nearly submerged, with nothing but the improvised masts projecting above water.

The day was an ideal one, and the ships continued their manoeuvres and target work under radiant skies with a temperature down to 66. Though all government work on land was suspended for the Labor Day celebration, the 15,000 men making up the crews of the twenty ships now constituting the Schroeder fleet were hard at work all day.

The battleship Missouri, which arrived from Boston Saturday, proceeded to sea early to-day, joining the other ships on the drill grounds and immediately taking their places on the stationary target ranges. This was the first test of the Missouri's big guns under such severe conditions.

ANTI-RAT MAN TO KILL 'EM AT THIRD

But Richmond Council Will Still Face Baltimore Team, Despite Binswanger.

A special dispatch from Baltimore last night says:

"The City Fathers of Baltimore will go to Richmond next Monday to show the Solons of the city on the James what they (the Virginians, of course) do not know about baseball.

"Manager White Ford, of the local team, has received a letter from Councilman C. P. Davis, of Richmond, accepting the challenge and setting the date. The local team will go to Richmond by boat and return by rail. With such celebrities as Aristides Socrates Goldsborough at short and Augustus Caesar Binswanger, known to fame as the father of the anti-rat ordinance, at third, there seems little hope for the Richmonders. Wilbur Robinson, one of the most famous catchers of baseball history, will accompany the Baltimoreans as their umpire."

When Councilman Davis heard last night that the author of the anti-rat ordinance would officiate at third, he threw up his hands. "That's where my best men will be killed," he said, "but here are some heroes left, and we'll face the enemy. When two Americans can reach the North Pole we ought to pass the rat-killer at third and reach home plate."

PADDY PRIMARY CHARGED BY KENT

Republican Candidate for Governor Gives an Interview at Newport News.

[Special to The Times-Dispatch.] NEWPORT NEWS, Va., September 6.—In an interview here to-day, W. P. Kent, Republican nominee for Governor, practically charged the State Democratic Committee with "padding" the primary returns in order to prevent the public from knowing the extent of dissatisfaction within the party ranks.

"The returns from the Democratic primary, given out by the Democratic State Committee, have provoked a State-wide smile," he said.

Kent would only say that few persons believed that the Democrats polled anything like so many votes as the published reports showed.

FOUND A WAY

To Be Clear of the Coffee Troubles.

"Husband and myself both had the coffee habit, and finally his stomach and kidneys got in such a bad condition that he was compelled to give up a good position that he had held for years. He was too sick to work. His skin was yellow, and I hardly think there was an organ in his body that was not affected. I told him I felt sure his sickness was due to coffee, and after some discussion he decided to give it up.

"It was a struggle, because of the powerful habit. One day we heard about Postum, and concluded to try it, and then it was easy to leave off coffee.

"His fearful headaches grew less frequent, his complexion began to clear, kidneys grew better, until at last he was a new man altogether as a result of leaving off coffee and taking up Postum.

"Then I began to drink it, too.

"Although I was never as bad off as my husband, I was always very nervous and never at any time very strong, only weighing 95 lbs. before I began to use Postum. Now I weigh 115 lbs., and can do as much work as any one my size, I think.

"Many do not use Postum because they have not taken the trouble to make it right. I have successfully fooled a great many persons who have drunk it at my table. They would remark, 'You must buy a high grade of coffee.' One young man who clerked in a grocery store was very enthusiastic about my 'coffee.' When I told him what it was, he said, 'Why, I've sold Postum for four years, but I had no idea it was like this. I'll drink Postum hereafter.'
